Preface

The Job Accommodation Network (JAN) is funded by a contract with the Office of Disability Employment Policy, U.S. Department of Labor. JAN makes documents available with the understanding that the information be used solely for educational purposes. The information is not intended to be legal or medical advice. If legal or medical advice is needed, appropriate legal or medical services should be contacted.

JAN does not endorse or recommend any products or services mentioned in this publication. Although every effort is made to update resources, JAN encourages contacting product manufacturers/vendors and service providers directly to ensure that they meet the intended purposes. This guarantees that the most up-to-date information is obtained.

The following document is not copyrighted and reproduction is encouraged. Section 105 of the Copyright Law provides that no copyright protection is available for works created by the U.S. Government. Therefore, all works created by JAN fall under this provision. While individuals may use such work with impunity, individuals may not claim copyright in the original government work, only in the original material added. Individuals may access the full text of the law from the U.S. Copyright Office <https://www.loc.gov/copyright>. Please note that specific information cited by JAN may be copyrighted from other sources. Citing secondary sources from a JAN publication may violate another organization's or individual's copyright. Permission must be obtained from these sources on a case-by-case basis. When using JAN materials, JAN asks that the materials not be reproduced for profit, that the tone and substance of the information are not altered, and that proper credit is given to JAN as the source of the information. For further information regarding this or any other document provided by JAN, please contact JAN.

Updated 01/24/2019.

JAN'S Accommodation and Compliance Series

Introduction

JAN's Accommodation and Compliance Series is designed to help employers determine effective accommodations and comply with Title I of the Americans with Disabilities Act (ADA). Each publication in the series addresses a specific medical condition and provides information about the condition, ADA information, accommodation ideas, and resources for additional information.

The Accommodation and Compliance Series is a starting point in the accommodation process and may not address every situation. Accommodations should be made on a case by case basis, considering each employee's individual limitations and accommodation needs. Employers are encouraged to contact JAN to discuss specific situations in more detail.

For information on assistive technology and other accommodation ideas, visit JAN's Searchable Online Accommodation Resource (SOAR) at <https://askjan.org/soar>.

Information about Leg Impairment

Leg impairments can arise from injuries, cancer, arthritis, diabetes, burns, and other conditions. They can be isolated to the leg or exist as a part of another condition. Limitations most often affect walking and can be painful.

Leg Impairment and the Americans with Disabilities Act

The ADA does not contain a list of medical conditions that constitute disabilities. Instead, the ADA has a general definition of disability that each person must meet. A person has a disability if he/she has a physical or mental impairment that substantially limits one or more major life activities, a record of such an impairment, or is regarded as having an impairment. For more information about how to determine whether a person has a disability under the ADA, see [How to Determine Whether a Person Has a Disability under the Americans with Disabilities Act Amendments Act \(ADAAA\)](#).

Accommodating Employees with Leg Impairment

People with limitations from a leg impairment may develop some of the limitations discussed below, but seldom develop all of them. Also, the degree of limitation will vary among individuals. Be aware that not all people with leg impairments will need accommodations to perform their jobs and many others may only need a few

accommodations. The following is only a sample of the possibilities available. Numerous other accommodation solutions may exist.

Questions to Consider:

1. What limitations is the employee experiencing?
2. How do these limitations affect the employee and the employee's job performance?
3. What specific job tasks are problematic as a result of these limitations?
4. What accommodations are available to reduce or eliminate these problems? Are all possible resources being used to determine possible accommodations?
5. Has the employee been consulted regarding possible accommodations?
6. Once accommodations are in place, would it be useful to meet with the employee to evaluate the effectiveness of the accommodations and to determine whether additional accommodations are needed?
7. Do supervisory personnel and employees need training?

Accommodation Ideas:

Limitations

Balancing

- Aerial Lifts
- All-Terrain Scooters
- All-Terrain Wheelchairs
- Anti-fatigue Matting
- Bath Chairs
- Canes
- Crutches
- Evacuation Devices
- Fall Protection
- Grab Bars
- Grab Bars - Toilet Hinged Arm Support
- Leg Extenders for Walkers
- Padded Edging

- Personal Safety and Fall Alert Devices
- Personal Transportation and Mobility Products
- Protective Eyewear
- Rollators and Rolling Walkers
- Rolling Safety Ladders
- Scooters
- Stair Assists
- Stair Lifts
- Swing Away Grab Bars
- Toileting Aids
- Walkers
- Walkers for Tall Individuals
- Walkers with Seats

Bending

- Accessible Baby Changing Stations
- Adjustable Exam Tables
- Adjustable Massage Tables
- Animal Lift Tables
- Automatic Snow Chains
- Battery Powered Lift Tables
- Compact Material Handling

Climbing

- Aerial Lifts
- Compact Ladders
- Elevators
- Evacuation Devices
- Extended Tractor Steps
- Folding Steps
- Ladders (General)
- Large-Rated Ladders

- Large-Rated Small Step Ladders
- Large-Rated Wheelchair Lifts
- Lightweight Ladders
- Rolling Safety Ladders
- Stair Assists
- Stair Lifts

Kneeling

- Animal Lift Tables
- Low Positioned Stools
- Low Task Chair
- Reachers
- Walk-up Changing Tables

Lifting

- Items
 - Aerial Lifts
 - Ball Transfer Tables
 - Battery Powered Lift Tables
 - Carts
 - Compact Material Handling
 - Compact Mobile Cranes
 - Drum Handling
 - Drywall and Wallboard Lifts
 - Engine Lifts and Lift Plates
 - Height Adjustable Table Legs
 - Lift Gates
 - Lift Tables
 - Low Task Chair
 - Manhole Cover Lifts
 - Rolling Safety Ladders
 - Stairclimbing Handtrucks

- Tool Balancers
- Truck Mounted Cranes
- Vacuum Lifts
- Vehicle Lifts and Manipulators
- Winches and Chain Hoists
- Work Platforms
- Other
 - Ergonomic Assessments
 - Ergonomic Equipment
 - Job Restructuring
 - Periodic Rest Breaks
- People
 - Accessible Baby Changing Stations
 - Adjustable Exam Tables
 - Adult Changing Tables
 - Animal Lift Tables
 - Bath Chairs
 - Evacuation Devices
 - Independent Living Aids
 - Large-Rated Wheelchair Lifts
 - Lifters and Carriers for Mobility Aids
 - Lifting Aids
 - Patient Lifts (General)
 - Pool Lifts
 - Power Lift IV Stands
 - Powered Bath Lifts
 - Proper Lifting Techniques
 - Toileting Aids
 - Transfer Aids
 - Transfer Sheets
 - Walk-up Changing Tables

- Wheelchair Lifts

Squatting

- Animal Lift Tables
- Low Positioned Stools
- Low Task Chair
- Reachers
- Walk-up Changing Tables

Standing

- Adjustable Workstations for Industrial Settings
- Adjustable Workstations for Office Settings
- Anti-fatigue Matting
- Assist Lift Cushions
- Elevating Lift and Office Chairs
- Flexible Schedule
- Grab Bars
- Periodic Rest Breaks
- Scooters
- Stand Aids
- Stand-lean Stools
- Stand-up Wheelchairs

Walking

- Aide/Assistant/Attendant
- All-Terrain Scooters
- All-Terrain Wheelchairs
- Anti-fatigue Matting
- Foldable / Transport Wheelchairs
- Large-Rated Scooters
- Large-Rated Wheelchairs
- Personal Transportation and Mobility Products
- Reclining Wheelchairs

- Rollators and Rolling Walkers
- Scooters
- Scooters for Small Stature
- Telework, Work from Home, Working Remotely
- Walkers
- Walkers for Tall Individuals
- Walkers with Seats
- Wearable Anti-fatigue Matting
- Wheelchairs
- Wheelchairs for Small Stature
- Worksite Redesign / Modified Workspace

Work-Related Functions

Commute

- Flexible Schedule
- Ridesharing/Carpooling
- Telework, Work from Home, Working Remotely
- Transportation Assistance

Parking

- Accessible Parking Space
- Flexible Schedule
- Telework, Work from Home, Working Remotely
- Wheelchairs

Work Station Access

- Work Station Access
 - Adjustable and Ergonomic School Desks and Equipment
 - Adjustable Desk Top Workstations for Office Settings
 - Adjustable Workstations for Industrial Settings
 - Anti-fatigue Matting
 - Assist Lift Cushions
 - Chair Mats

- Chairs for Little People
- Chairs for People who are Tall
- Elevating Lift and Office Chairs
- Ergonomic and Adjustable Office Chairs
- Large-Rated Chairs
- Stand-lean Stools
- Supine Workstations
- Work Platforms
- Zero Gravity (reclining) Chairs
- Other Solutions
 - Articulating Keyboard Trays
 - Dual Monitors
 - Ergonomic Equipment
 - Expanded Keyboards
 - Forearm Supports
 - Forward Leaning Chairs
 - Monitor Mirrors
 - Monitor Risers
 - Mousing Surfaces

Situations and Solutions:

A college coordinator had reflex sympathetic dystrophy, which made her legs swell.

The employee had to elevate her legs periodically throughout the day. The employer purchased a specialized reclining office chair with footrest. The employee was able to continue working at full production with the new chair and a laptop.

A construction worker with a leg impairment couldn't climb ladders due to an injury he received away from work.

After having a discussion with the employer, together they found an aerial lift that would permit the employee to reach the areas he needed and continue to be successful in his job.

A customer service agent for an insurance company was pregnant and experiencing significant leg and back pain when sitting for long periods of time.

She also needed to use the restroom frequently. The employer provided an adjustable workstation to enable the employee to alternate between sitting and standing positions. The employer also allowed her to take more frequent rest breaks by dividing her existing thirty-minutes of break time into several smaller increments of time so she could use the restroom as-needed.

An emergency room nurse with a leg impairment had walking restrictions.

She couldn't keep up with the fast paced environment in the emergency room, so her employer reassigned her to an outpatient clinic where she could use a wheelchair the hospital already owned. This enabled the employer to retain a valued skilled employee.

An accountant with a temporary leg impairment couldn't climb the stairs at her office building.

The employee's office was on the 2nd floor. She was accommodated by moving her workstation to the first floor until her leg healed.

A customer service representative at a financial institution couldn't sit in a vehicle for any length of time due to a newly acquired leg impairment, preventing her from being able to commute to work.

The employer called JAN to learn about its responsibilities as an employer for commuting issues. The employer permitted the employee to telework from home as a reasonable accommodation.

A quality inspector for a manufacturing company was experiencing painful swelling in her legs, ankles, and feet during pregnancy.

Her job required standing for long periods of time and she needed to be somewhat mobile. Her medical provider recommended that she take breaks to get off her feet. The employer provided a stand/lean stool to enable her to take pressure off her feet, as-needed, added anti-fatigue matting to her work area, and permitted the employee to rest with her feet up during breaks.

A production assembly line worker had symptoms of frequent urination and diabetic neuropathy in his legs.

The employee could not leave his work area except during scheduled breaks. Accommodation included the use anti-fatigue mat, sit/stand/lean stool, and an in-house paging system to notify the supervisor that a replacement is needed while the employee takes a restroom break.

A kindergarten teacher with a leg impairment couldn't bend down to the student's desks.

The job required her to have close contact so she could check student's work. The employer provided the teacher with a low task chair which enabled the teacher to get down to desk level.

Products

There are numerous products that can be used to accommodate people with limitations. JAN's Searchable Online Accommodation Resource at <https://askjan.org/soar> is designed to let users explore various accommodation options. Many product vendor lists are accessible through this system; however, JAN provides these lists and many more that are not available on the Web site upon request. Contact JAN directly if you have specific accommodation situations, are looking for products, need vendor information, or are seeking a referral.
